

BIZZOZERO MICA SRL

BIZZOZERO, 70th BIRTHDAY NEXT 2009, EXHIBITS NEW AND TRADITIONAL BINDING MACHINES : WIRE STITCHERS, GLUE BINDINGS, CUTTINGS, ROLL LAMINATINGS.

BIZZOZERO factory, which has been working since 1939, making wire stitchers, will be seventy years old in 2009 at the next GRAFITALIA exhibition.

More than 5000 wire stitchers are working thanks to the ability of Bizzozero to give them assistance and spare parts, also with old dated machines.

The target of BIZZOZERO customers are the small and middle size typografies, companies, firms and state printing centres and book binders,: to this target BIZZOZERO offers its new technologically updated products that are going to be exhibited at GRAFITALIA 2009.

The increasing of digital printing makes profitable for them to fit up binding for themselves or make small book or brochure bindings on behalf of a third part.

At GRAFITALIA 2009, besides our 4 models of wire stitchers that are considered among the best in the world (models 108E, 108HM, 108M35 e Super 16), BIZZOZERO is going to exhibit 3 models of glue bindings, 2 models of paper cuttings and 2 models of roll laminatings that let the customer chose the most profitable technical solution, related to the type and range of work.

The most considerable Automatic Binding Model A3 is equipped with modern and interesting technical devices, it works book binding sizes till 420X320mm, book binding thickness till 59mm and binding speed 500 book/hour.

The middle model 970V, programmable by display and equipped with many vanguard devices, works till A3 sizes, thickness till 60mm and binding speed 300 book/hour.,

The table model 920T, that is smart, suitable and cheap, works A4 sizes, thickness till 37mm and binding speed 200 book/hour

In the end, the ambition of BIZZOZERO is to offer to the more demanding customers its working line, which includes the stitcher, the binding machine and the cutter.
