

OMNIA CARD SYSTEMS S.R.L.

OMNIA CARD SYSTEMS IS ATTENDING GRAFITALIA 2008 WITH AN EXHIBITION AREA WHERE THE NEW DATACARD® GA-VEHREN MODULAR FINISHING SYSTEMS WILL BE SHOWN.

Paderno Dugnano, November, 11st – From 24 to 28 March 2008 It will take place at the new Fieramilano exhibition complex in Rho (Milan) Grafitalia 2009, the most important event in Italy and one of the main exhibits in Europe to keep your business up-to-date on technological evolution in graphic arts

Omnia Card Systems, the exclusive distributor in Italy of Datacard® products It will be present with an exhibition area where the staff will show the Datacard® Ga-Vehren finishing solutions.

The Ga-Vehren® solutions ideal for gift cards, commercial print, binderies and direct mail houses, offer customized configurations based on standard components.

Customers can choose a base system then add finishing options suitable for their fulfillment and packaging needs. As the systems are modular in design and construction, the customers can add to their systems as their business needs evolve, protecting their capital investment.

Datacard® Ga-Vehren Attacher® systems have an extensive choice of product attaching and finishing capabilities, allowing organizations to attract the broadest range of high margin jobs and deliver them using a single system. The system's transport base accommodates more than 20 types of affixing and finishing options, allowing you to purchase a single system and change the configuration as your program needs grow.

Grafitalia is a strong leading brand in Italy, eagerly awaited by international suppliers and users. The exhibition serves one of the largest graphic arts markets in Europe: Italy is the third European market by size.

Grafitalia is a key event for all industry professionals and will give Omnia Card Systems the chance to meet a specified target.
