

PRIMA SRL

PRIMA Offering the best solutions for the handling and processing of printed paper

This is the mission message from Prima Srl: an Italian company that for over 40 years has been one of the leading companies in the printed paper and document processing sector. The company has been marketing its products both in the home market and in the international markets world-wide.

Prima is one of the very few Italian companies that covers the whole of the Italian market, both commercially and technically; it has in fact its own sales force and technical organisation. It is for this reason and because of its high degree of professionalism that Prima represents on an exclusive basis in Italy, some of the most important international companies in this sector. A sector that apart from binding, also includes laminating, shredding, folding and cutting systems. This complete range of products varies from 12 different types of binding systems, including plastic, wire and thermal binding. It also incorporates a wide range of folders, cutters, trimmers, guillotines and a range of laminating machines that extends from the small pouches machines to the very large professional roll machines. Furthermore, with over 40 models of shredders, it can offer a solution for every need, in order to prevent confidential information getting into the wrong hands.

PRIMA OFFERS PRODUCTS AND IDEAS THAT GUARANTEE PROFESSIONAL AND EFFICIENT SOLUTIONS FOR ANY REQUIREMENT.
